If you do not have your
ClickBank links before we start building,
you will not be able to place them
on the site.

If you do not have and Adsense or Amazon ID
you will want to use this site to apply for
those two affiliate programs and then
place your links and codes in after you have
successfully applied and gained acceptance
into each program.

Here is my affiliate link for the host account you will need to set up:

(Mouse over the link, hold the control button and left click to go to hosting)

Now you are all set.

Do NOT select any of the "Add Ons", you do not need them.
Then click "Continue".

If you already have an account at HostGator, I will not get a commission for the sign up, therefore I will need to forward you to another host account. In that case, please send me a ticket at <http://www.myfreewebsitesoffer.com/support/> with the subject line: "Different Host Account".

I will then forward you to another trusted partner of mine in hosting where I will be able to provide you support in the event that you need more focused attention that the host provider can provide. Sometimes the host companies can be a pain if you are not yet speaking their language.

I am really excited to be able to teach you how to make money with your own web sites. Additionally, you are going to learn all the wonderful things that Wordpress plug ins can do for you. These plug ins are little balls of php script that automate so many of the things you need to do on a daily basis and make life a little easier than grinding out daily articles. It's time to let your tools work for YOU!

PHP brings the products and information to you! No more endless article writing!

1-Once you have paid for and received the receipt for the host account....

2-The next thing you need to do is to have the name servers changed.

Please send the following note to your registrar
(where you bought your domain) or change
them yourself:

Please change my DNS to point
to the following name servers:

ns1091.websiteswelcome.com
ns1092.websiteswelcome.com

Thank you.

If your new host company is also the registrar,
Add this to the note:

I understand that these are different nameservers than
the ones for my account, so please change them for me
as I am having a site built on another server and will move
that site here soon.

3-What niche would like for this site to be built for:

4-Follow me on Twitter for an extra 100 free pages for a total of 200 pages FREE! (yes or no)

<http://twitter.com/RogersFreeSites>

5-Login information for your new host account

5-URL of your new domain name

6-5 ClickBank hop links for products you want to promote that are relevant to your niche.

See this video for instructions on how to submit your links:

<http://www.youtube.com/watch?v=lFmaqYvo7DM>

Please place your hop links here:

7-Your Adsense ID :

It looks like this: "pub-xxxxxxxxxxxxxxx"

This is the publisher number associated with your Adsense account. If you do not know where to find this, or you do not have an Adsense account, we will skip this step and you can leave this line blank.

8-Your Amazon :

A) ID, (looks like: "xxxxxxxx-20" if you are in the US):

B) Key and

C) Secret key

You can find the key and secret key here:

<http://aws.amazon.com/about-aws/>

At the top right,
Click "Account",
In the drop down, click, "Security Credentials".

This is where you will find the items listed
above and the where you can create the secret
if you do not have one or have yet to create one.

If you have not yet created a secret key,
do it now at the link above.

9-Send in your COMPLETED info sheet and
your hosting INVOICE to me by going to:

<http://www.myfreewebsitesoffer.com/support/>

and opening a ticket and pasting both documents there in
the window along with any notes you have for me at the time.

(please create a break between the two docks, such as:

Then the next document. Thank You!)

10- Once you have submitted your info to the support desk, go to:

<http://myaffiliateapprentice.com>

to register. I will approve your registration based on received tickets with the complete info set needed.

Here, you will receive your step by step guide to getting started with your new site and what you need to do to make money with it and the subsequent steps you will need to take to get to the next level of internet marketing.

Thank you for making things a little easier on me in getting your free site to you as easily and quickly as possible. I know you are anxious to get started earning learning the Wordpress platform and I am anxious for you.

Good Luck and I will be looking forward to any reports you have about your earnings.

Thanks!

Roger
